**THIS IS
MAGICSHINE**

LIGHT UP
THE WORLD

Magicshine, a brand name synonymous with brightness and reliability, is the market leader in high-performance bike lights, headlamp and diving flashlights.

Magicshine lights are commonly spotted among bikers, hikers, climbers, and divers all over the world.

Through user reviews and research & development, our products have been in the forefront of sporting LED light evolution.

To maintain momentum, our professional engineers and design teams are always keen to offer increased performance in significant Magicshine products.

Whenever you need a bike light, headlamp or diving torch to suit your needs,

Magicshine has the right lights for you.

Our core belief in innovation and product reliability has propelled the Magicshine brand to global recognition for exceptional, yet affordable lights.

When choosing a Magicshine product you are getting the best valuable lighting solution for your outdoor & underwater sports.

**Choose Magicshine,
enjoy outdoor activities at night
as much as during the day!**

MS-622

BIKE FRONT / TAIL LIGHT COMBO

USB RECHARGEABLE

PERFECT FOR COMMUTING

Specifications

Light source : White / Red Color
Luminous flux : 30LM (Front Light) 10LM (Tail Light)
LED lifespan : 50,000hours
Shell material : Aluminum alloy and plastic
Working modes : High / Mid / Flashing
Runtime : 5 hours @100% brightness (Front light)
Runtime : 5 hours @100% brightness (Tail light)
Battery life : 500 charger cycles
Waterproof grade : IPX4
Size : L51 x W28 x H30.5mm

SIDE BUTTON, EASY OPERATION

360° ROTATABLE MOUNT

QUICK TO MOUNT AND RELEASE

FIRM AND SECURE

MJ-900

MAX 1200LM

Specifications

Light source : 1 x CREE XM-L2

Luminous flux : 1200LM

LED lifespan : 50,000 hours

Shell material : Aluminum alloy and plastic

Battery : 2 x 18650 Li-ion batteries (7.4V 2.6AH)

Battery life : 500 charge cycles

Runtime : 2.6 hours @ 100% brightness

Charging time : 3.0~3.5 hours

Waterproof grade : IPX4

Size : L45 x W33 x H38mm

MJ-902

BIKE FRONT / TAIL LIGHT COMBO

MAX 2000LM

Specifications

Light source : 2 x CREE XM-L2
Luminous flux : 2000LM
LED lifespan : 50,000 hours
Shell material : Aluminum alloy and plastic
Battery : 4 x 18650 Li-ion batteries (7.4V 5.2AH)
Battery life : 500 charge cycles
Runtime : 3.2 hours @ 100% brightness
Charging time : 3.5~4 hours
Waterproof grade : IPX4
Size : L45 x W33 x H38mm

MAX 2000LM

RUNTIME 3.2 HOURS @ 100% BRIGHTNESS

FRONT LIGHT AND TAIL LIGHT COMBO

MJ-906

REMOTE CONTROL FOR
BOTH FRONT AND TAIL LIGHT

MAX 5000LM

Specifications

Light source : 5xCREE XM-L2

Luminous flux : 5000LM

LED lifespan : 50,000 hours

Shell material : Aluminum alloy and plastic

Battery : 6 x 18650 Li-ion battery (7.4V 7.8AH)

Charging time : 4.5~5.0 hours

Runtime : 3.6hours @ 100% brightness

Battery life : 500 charge cycles

Waterproof grade : IPX4

Size : L56 x W43 x H50mm

MAX 5000LM

ALUMINUM ALLOY AND PLASTIC

FRONT LIGHT AND TAIL LIGHT COMBO

MJ-908

REMOTE CONTROL FOR
BOTH FRONT AND TAIL LIGHT

MAX 8000LM

Specifications

Light source : 8xCREE XM-L2

Luminous flux : 8000LM

LED lifespan : 50,000 hours

Shell material : Aluminum alloy and plastic

Switch : Top Click Switch and wireless remote switch

Battery : 6 x 18650 Li-ion batteries (7.4V 7.8AH)

Battery life : 500 charge cycles

Runtime : 3.0 hours @ 100% brightness

Charging time : 3~4 hours

Waterproof grade : IPX4

Size : L73 x W54 x H62mm

MAX 8000LM

TOP CLICK SWITCH AND WIRELESS
REMOTE SWITCH

1PCS BATTERY PACK

FRONT LIGHT AND TAIL LIGHT COMBO

EAGLE F3

WIRELESS REMOTE CONTROL

MAX 3000 LUMENS

Specifications

Light source : Four ultra bright LEDs

Luminous flux : 3000LM

LED life span : 50,000 hours

Shell material : Aluminum & Plastic

Switch : Top click switch & wireless remote control

Battery : 8x18650 Li-ion batteries (7.4V 8.8AH)

Battery life : 500 charge cycles

Working modes : High-low beam / High beam / Low beam

Runtime : 1.6 hours @ 100% brightness

Waterproof grade : IPX5

Size : L70 x W77 x H53mm

FOUR ULTRA BRIGHT LEDs

ALUMINUM & PLASTIC

LED POWER INDICATOR

WIRELESS REMOTE CONTROL

EAGLE M2

WIRELESS REMOTE CONTROL

MAX 2400 LUMENS

Specifications

Light source : Six ultra bright LEDs

Luminous flux : 2400LM

LED life span : 50,000 hours

Switch : Two top click switch & wireless remote control

Battery : 4x18650 Panasonic Li-ion batteries (7.4V 4.4AH)

Battery life : 500 charge cycles

Working modes : High-low beam / High beam / Low beam

Runtime : 2 hours @ 100% brightness

Waterproof grade : IPX5

Size : L63 x W54 x H43mm

Charging time : 3.5-4hours

SIX ULTRA BRIGHT LEDs

2400LM

TWO TOP CLICK SWITCH

WIRELESS REMOTE CONTROL

EAGLE 700

USB BICYCLE LIGHT

MEASURED 700 LUMENS

Specifications

Light source : Two CREE XP-G2 ultra bright LEDs

Luminous flux : Measured 700 actual lumens

LED life span : 50,000 hours

Shell material : Aluminum alloy and plastic

Switch : Top click switch

Working modes : High / Mid / Low / Flash

Battery : 1x18650 Li-ion battery (3.7V 2.2Ah)

Battery life : 500 charge cycles

Runtime : 1.5 hours @ 100% brightness

Charging time : 4.5 hours

Waterproof grade : IPX5

Size : L105 x W40.7 x H45mm

DUAL LED, 700 REAL LUMES

PATENTED QUICK RELEASE MOUNT

TOP CLICK SWITCH

THREE STRAP SIZES AVAILABLE

EAGLE 600

USB BICYCLE LIGHT

MEASURED 600 LUMENS

Specifications

Light source : Two CREE XP-G2 ultra bright LEDs

Luminous flux : Measured 600 actual lumens

LED life span : 50,000 hours

Shell material : Aluminum alloy and plastic

Switch : Top click switch

OLED display : Beam pattern + Runtime

Working modes : High-Low beam / Low beam / Flash

Battery : 1x18650 Li-ion battery (3.7V 3.1Ah)

Battery life : 500 charge cycles

Runtime : 1.5 hours @ 100% brightness

Waterproof grade : IPX5

Size : L105 x W40.7 x H45mm

OLED DISPLAY TO SHOW RUNTIME

DUAL BEAM

SIDE VISIBILITY

360° ROTATABLE MOUNT

EAGLE 300

USB BICYCLE LIGHT

MEASURED 300 LUMENS

Specifications

Light source : One CREE XP-G2 ultra bright LEDs

Luminous flux : Measured 600 actual lumens

LED life span : 50,000 hours

Shell material : Aluminum alloy and plastic

Switch : Top click switch

Working modes : High / Mid / Low

Battery : 1x18650 Li-ion battery (3.7V 2.2Ah)

Battery life : 500 charge cycles

Runtime : 2.1 hours @ 100% brightness

Waterproof grade : IPX5

Size : L105 x W40.7 x H45mm

ONE ULTRA BRIGHT LED

USB RECHARGEABLE

BATTERY INDICATOR

THREE STRAP SIZES AVAILABLE

MJ-886

HEADLAMP

MEASURED 550 LUMENS

Specifications

Light source : 3 x SSC Z5 LEDs

Luminous flux : 550 Lumens

LED lifespan : 50,000 hours

Shell material : Aluminum alloy body with plastic shell

Surface treatment : Type III hard-anodized anti-abrasive finish + Chrome plating

Switch : Top click switch & Remote switch

Working modes : High / Mid / Low

Battery : 2x18650 Li-ion battery (7.4V 2.2AH)

Battery life : 500 charge cycles

Runtime : 2.3 hours @ 100% brightness

Waterproof grade : IPX4

3 x SSC Z5 LEDs

ALUMINUM ALLOY BODY WITH
PLASTIC SHELL

TOP CLICK SWITCH & REMOTE SWITCH

HELMET COMPATIBLE

MJ-886B

HEADLAMP

MEASURED 300 LUMENS

Specifications

Light source : One CREE XP-G2 ultra bright LEDs

Luminous flux : 300 Lumens

LED lifespan : 50,000 hours

Shell material : Aluminum alloy body with plastic shell

Surface treatment : Type III hard-anodized anti-abrasive finish + Chrome plating

Switch : Top click switch

Working modes : High / Mid / Low

Battery : 1x18650 Li-ion battery (4.2V 2.2AH)

Battery life : 500 charge cycles

Runtime : 2.1 hours @ 100% brightness

Charging time : 2.5hours

Waterproof grade : IPX4

ONE CREE XP-G2 ULTRA BRIGHT LED

ALUMINUM ALLOY BODY WITH
PLASTIC SHELL

TOP CLICK SWITCH & HELMET COMPATIBLE

MJ-890

USB BICYCLE LIGHT

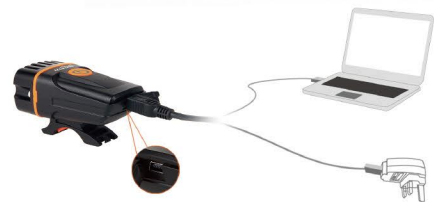

MEASURED 160 LUMENS

SSC Z5

ALUMINUM ALLOY & PLASTIC

USB RECHARGEABLE

Specifications

Light source : SSC Z5

Luminous flux : 160 Lumens

LED lifespan : 50,000 hours

Shell material : Aluminum alloy & Plastic

Surface treatment : Type III hard-anodized anti-abrasive finish

Switch : Top click switch

Working modes : High / Mid / Flashing

Battery : Rechargeable lithium polymer battery (3.7V 1.5AH)

Battery life : 500 charge cycles

Runtime : 3 hours @ 100% brightness

Waterproof grade : IPX4

MJ-819

Smart USB Tail Light

Features

1. Smart tail light
2. USB rechargeable
3. 15 ultra-bright LEDs
4. Runtime up to 8 hours @Normal
5. Intelligent detection technology
6. Auto on/off technology

MJ-819 is a masterpiece that provides a new level of safety, beauty and technology. In its unique Intelligent Mode, the Smart Tail Light detects when the brake is applied and increases in brightness and holds steady to signal to riders or vehicles behind you that you are slowing down. The Smart Tail Light also detects other sources of light and automatically turns on and off as needed. Our Smart Tail Light provides visibility from all angles and is perfect for cyclists who require added security and protection of our industry-leading intelligent mode.

USB RECHARGEABLE

INTELLIGENT DETECTION TECHNOLOGY

15 ULTRA-BRIGHT LEDs
