Fenix SD20 Flashlight

Whether deep-sea exploration, hunting or obtaining underwater nightfish, the Fenix SD20 Flashlight is built for all diving activities. Delivering a maximum output of 1000 lumens of white light and 105 lumens of red light, the SD20 is powered by two 18650 rechargeable batteries. With a waist of the flashlight head, users can access three lighting modes and turn the light on and off. Equipped with a rotating magnetic ring for one-hand operation and a battery indicator light, this light offers convenience and assured illumination to divers.

- Uses Cree XM-L2 U2 and Cree XQE Red LED with a lifespan of 50,000 hours
Powered by two 18650 rechargeable Li-Ion batteries or four CR123A Lithium batteries
208mm Length x 26mm Diameter x 40mm Head
245 grams (not including batteries)
Rotating magnetic ring for one-hand control
Double-layer body tube guards against corrosion
Integrated white and red light illumination
Digitally regulated output maintains constant output
Intelligent over-heat protection to avoid high temperature of the surface
Low-voltage warning reminds when battery replacement is needed
Reverse polarity protection, to protect from improper battery installation
Tail cap with big buckle for fast and convenient quick draw
Made of durable anodized-grade aluminum
Premium type III hard-anodized anti-abrasive finish
Toughened ultra-clear glass lens with anti-reflective coating
