MAGLITE.CA

Mag Instrument is proud to be a leader in the current renaissance in American manufacturing. Our founder and president, Anthony Maglica, is a fervent believer in the importance of manufacturing in the United States. He insists that the manufacture of Mag Instrument's flashlights remain U.S.-based. He has dedicated himself to proving that American products can excel in the global marketplace by using technology to continuously improve quality and reduce costs. Over the last three decades, Mr. Maglica's innovations have enabled Mag Instrument to offer consumers a consistently better value than the competition.

Although the company is vertically integrated to a high degree, not every part, component or accessory can be made in-house. In such cases we try hard to source the item from a domestic vendor; but it is one of the realities of globalization that certain parts and accessories have to be imported. Nevertheless, every Mag flashlight is designed, engineered, built in and shipped from our American factory by our American workers.

As such, Mag Instrument is the only flashlight company with significant market share that still manufactures its entire line of flashlights in the United States. Unlike its competitors, Mag Instrument has chosen not to outsource the manufacturing of its flashlights to foreign countries in order to take advantage of cheap labor and less stringent environmental standards. If Mag Instrument had chosen the path of other flashlight companies, the jobs of its hundreds of manufacturing employees in Ontario, California, would have been lost – with corresponding job losses at other American companies that supply our American factory.

Maglite® flashlights make "brilliant" corporate gifts. In fact, thousands of organizations all over the world have discovered that when you consider our reputation for quality and design, combined with our high perceived value, Maglite® flashlights will deliver your desired results.

Our customizing capabilities allow your company name, logo, or message to become a permanent addition to any Maglite® flashlight. Your artwork can be duplicated precisely with our fully computerized laser engraving process.

GENERAL INFORMATION

Lifetime Warranty

ALL MAG-LITE® products are covered by a limited LIFETIME WARRANTY.

All prices in this catalogue are quoted in CND\$ and are effective at the time of publication. All prices are subject to change. Refer to website for most accurate pricing and product information, www.maglite.ca.

SET UP CHARGES: \$70(G) per model, per location, per logo. Repeat orders will not be charged a set up if placed within a two year period. All repeat orders must be submitted with the original purchase order referenced.

2ND LOCATION RUN CHARGE: \$1.30 (G)

MINIMUMS: Minimum order quantity is 24 pieces unless otherwise specified .

BATTERIES: Batteries are not included in C and D cell flashlights but can be purchased and inserted. C-Cell Batteries \$2.05 (G), D-Cell \$2.50 (G)

VECTOR ARTWORK: We recommend using vector art because it produces the highest quality artwork. It is "resolution independent" which means it can be enlarged without affecting the quality of your imprint. Artwork will be accepted digitally from the following programs: Adobe Illustrator, Photoshop, Corel Draw or an eps. file.

IMPRINT SIZE: Artwork is sized to the maximum imprint area, unless otherwise requested. Due to the orientation of some logos, artwork may be resized and smaller than the imprint area provided.

PRODUCTION TIME: 10 business days for production and 5 business days to ship into Canada.

NEW ACCOUNTS: All first time orders must be prepaid, once credit is established terms are Net 30 Days .

MAG-LITE® SOLITAIRE® LED

Our MAG-LITE® SOLITAIRE® LED flashlight features the classic look of our original Solitaire® flashlight introduced in 1988. And it works in the same simple way – just twist the head to turn on, turn off and focus spot to flood.

But thanks to a new, state-of-the-art LED light engine, you get something you just wouldn't expect to see coming out of a flashlight so small: A blast of power that can light up an object at the far end of the parking lot.

Maglite® Solitaire® LED 1-Cell AAA

Includes: Laser engraving one location, Gift box, Flashlight, one AAA premium alkaline battery, keylead

- Imprint Colors - Laser engraving appears as silver
- Imprint Area - Barrel: 5/16" x 1 1/4"
- Overall Length: 3 3/16" • Barrel Diameter: 1/2"
- Head Diameter: 1/2" • Weight with battery: 0.8 oz.
- Shipping Weight - Approx. 4 lbs. per 24 pieces
- Packaging - Presentation Box

Designed with extensive input from police tactical users and yet suitable also for civilian use, this plain-bezel version of the MAG-TAC® LED flashlight comes with a detachable pocket clip and features three modes: Two power levels (Full Power for extreme brightness and Power Save for prolonged battery life) plus a Momentary mode (in which the light stays on only while the switch button is being pressed) – all selectable through Mag Instrument’s tailcap-switch-activated “Quick-Click™” mode selector.

Designed with extensive input from military tactical consultants, and yet suitable also for civilian use, this crowned-bezel version of the MAG-TAC® LED flashlight comes with a detachable pocket clip and features three modes: Momentary (in which the light stays on only while the switch button is being pressed); Full Power for a dazzling, 320-lumen beam that can light up an object two football fields away; and Strobe for a high-energy 12 Hz strobe that can disorient an opponent. All functions are selectable through Mag Instrument’s tailcap-switch-activated “Quick-Click™” mode selector.
