

LightFORCE[™]
PERFORMANCE LIGHTING

LIGHTFORCE LED HAS ARRIVED

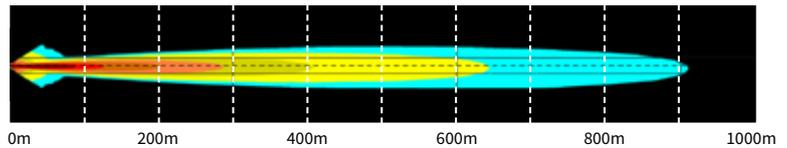

May 2015

LED215 SERIES 108W - COMING SOON • [PAGE 27](#)

The best LED spot on the market just got better - the exciting new LED215 will be ready to pack a punch this June! Providing superior performance in its class, the LED215 features tough pressure cast aluminium construction, two pack DuPont automotive coating, rugged impact resistant hard coated polycarbonate lens and filter with a water proof rating to IP68 standard. Suitable for 12/24V DC operation.

Lightforce LED215 Spot 912m @ 1 LUX

 National Association of Testing Authorities Accredited, Australia. Photometric testing performed by Photometric Solutions International Pty Ltd (PSI) Huntingdale VIC • February 2015

LIGHTFORCE LED BAR RANGE • [PAGE 28](#)

The Lightforce LED light bar range is rugged and impact resistant, featuring a hard coated polycarbonate lens for durability and a waterproof rating to IP69K standard. Built tough to Lightforce specifications, the Lightforce LED bar series driving lights set new performance benchmarks for durability and performance, available in single and dual configurations; spot, flood or combination beam patterns. Range includes 6", 10" and 20" Dual & Single Row Lightbar. All lightbars come with wiring harness included.

LED ROK 40W LED COMPACT • [PAGE 27](#)

40 watt compact series utility LED lights available in flood (dispersive) beam for heavy equipment usage, work lights, mining or marine. Also available in spot (intensive) beam for off road vehicles and ATV where a powerful intense beam is required. 4 x10w CREE chipsets, Includes wiring harness.

ENFORCER HID • [PAGE 10](#)

Outstanding new generation HID performance with integral ballast integrated within the moulded handle. Light weight and high power, the intense 4200K bulb produces a crisp white beam in 50w for blistering performance with separate switched low energy LED task light for close work. Rugged and reliable HID lamp protects against filament shock and will withstand tough duty with reliable performance.

STRIKER 170MM HIGH PERFORMANCE COMPACT DRIVING LIGHTS

Striker is the heavy hitter in the Lightforce range with outstanding performance and suitability for installation in tight locations. High output 100W Xenophot bulbs and supremely efficient polycarbonate reflectors system ensure Striker out-performs and out-lasts bulky glass and metal competitors. Four beam patterns and five filter colours are available.

Welcome to Lightforce “CUSTOM BUILT” Lighting Solutions. At Lightforce we understand the need for fast and practical lighting solutions designed specifically to meet the requirements of the individual customer.

Introducing “CUSTOM BUILT” Lighting Solutions from Lightforce! Lightforce has introduced a custom design and fabrication service specialising in lighting solutions for customers with unique individual requirements. Whether you need 1 system or 1000, a Lightforce engineering consultant will help you through the design process and our competitive pricing and fast turn-around times mean you’ll have portable, powerful and purpose built lighting at your fingertips in no time!

We are proud of our company’s heritage. In the early days we began by designing custom equipment for individuals in relatively short runs. Over time this personal approach has given way to larger scale production, and the individual user requiring a unique solution to their lighting problem has had to settle for an “off the shelf” product. With our Custom Built division, customers can return to having a custom solution made for their needs.

- Speak directly with the manufacturer
- Customised fabrication or assembled from existing parts to suit your requirements
- Specialising in HID & LED lighting
- We can produce 1 or 1000 units
- Quality hand assembled products
- 12 Months warranty* (*conditions apply)
- Committed to customer service
- Our most important asset is you the customer. Your opinion and needs are paramount
- It’s not what we can “sell” to the customer but what our customer needs that matters!

EXTREME HID XENON UPGRADE KITS

Genuine Lightforce Custom Built upgrade kits transform your existing standard halogen XGTs or RMDL lights to HIGH output Xenon HID technology, increasing your visibility dramatically in addition to considerably reducing the electrical load on your vehicle charging system. These unique bulbs reduce the shadow "V" line commonly found in many aftermarket kits with the physical size of the 50W and 70W bulb being 15% larger over the standard 35W bulb.

HANDHELD HID LIGHTS

Lightforce Custom Built range of handheld Xenon HID lights are made from lightweight composite polymer construction for extreme strength and durability without the heavy weight found in metal lights. With an internal 35W, 50W or 70W ballast enclosed within the base, this light is very well balanced and easy to operate. Available in different colour temperatures and cable configurations from the standard coil cord with cig plug to figure 8 cable with heavy duty alligator clips. A removable cable option is also available.

NEW ENFORCER - THE ULTIMATE IN PORTABLE LIGHTING TECHNOLOGY

Gore® protective vent to safeguard against ingress and contaminants

Variable power options available

Adjustable reflector allowing you to focus your beam as required with provisions for clip on filters

Completely water resistant and corrosion proof

Anti-shock protective rubber coating

Multiple power options for in field replacement include:

Large soft touch rubber coated grip for versatile use

- clip-on high capacity Ni-Mh battery for cordless operation (halogen option only)
- Cig/merit curly cord
- 5m figure 8 alligator cord
- Portable power packs for all models

Revolutionary quick change, in-field power options available

LED task light built into the handle, with a soft touch in built switch

Designed with Hunters in Mind

The all new Australian made Lightforce Enforcer range is available in halogen, variable power halogen and HID models with three choices of reflector sizes. Made from lightweight polycarbonate, the virtually unbreakable Enforcer range is compatible with the Lightforce clip on modular filter system and are available in a range of complete kit options.
