HUNTING & TACTICAL

Powerful tactical flashlight with wide beam angle and magnetic charger

New generation Armytek tactical flashlight with soft wide light. Large central spot and wide side spill make Viking Pro perfect for short- and medium-range use at a 50-70 meters distance (maximum distance of light is 288 meters). Wide beam of light allows to comfortably highlight the objects at close distances. Thanks to the silicone grip and tail tactical button, the flashlight is easy to operate

with just one hand. Viking Pro is compatible with original color filters and remote switches, as well as with any universal weapon mounts for tactical application.

The new version of Viking Pro is a ready high-tech solution from Armytek. The flashlight is supplied with a fast magnetic charger and a 18650 Li-Ion battery 3500 mAh.

- Special precisely calculated reflector for powerful wide LED and tempered glass with anti-reflective coating create large central spot and wide side spill at 2200 lumens brightness. Spill diameter is 20 meters at 100 meters distance
- Powerful electronics provides constant brightness even at a temperature of -40°C and not fully charged battery
- Two types of operation: hunting and tactical. Tactical operation for quick access to maximum brightness mode and Strobe mode
- Withstands any recoil due to improved springs and installation of the driver inside a reinforced capsule filled with protective compound
- Standard 1 inch body is compatible with any accessories, including original magnetic remote switch and magnetic mount for quick one-motion attachment and removal
- Two-phase electronic button retained two levels of pressing similar to mechanical switch, but became noiseless and 20 times more durable
- Non-flat button allows to easily switch the flashlight with a palm

- Innovative technology allows using any 18650 Li-Ion batteries and provides full protection against short circuit even in case of contact between magnetic connector and metal objects
- Solid body made from aircraft-grade aluminium, special matt anti-abrasive finish without rough knurling
- Steel striking bezel with matte non-reflective black titanium coating, which prevents location disclosure, is used for additional protection of the optical system in the event of a fall and as a shock-crushing tool
- Active real-time temperature control to prevent overheating above $+58^{\circ}\text{C}$ and warning indication of low battery level
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even at 25 meters depth up to 5 hours. Withstands fallings from the 10th floor

WHAT'S NEW IN VIKING PRO

Maximum brightness: combination of wide LED and special reflector provides maximum light output in tactical flashlights lineup

Innovated electronics and firmware: optimized runtimes and enhanced brightness

 **2200**
LUMENS

Upgraded active real-time temperature control: when the temperature becomes close to +58 °C, brightness decreases, allowing to avoid flashlight and battery overheating and burns. Compliance with European safety standards

Stylish body: matte anodizing, laconic style, new corporate branding

MAGNETIC USB CHARGER
Robust and water resistant magnetic connector

Fast magnetic charger: supplied 18650 Li-Ion 3500 mAh battery is charged in

 **3 h 40 min**

Increased reliability: special placement and fixation of the driver in the flashlight body

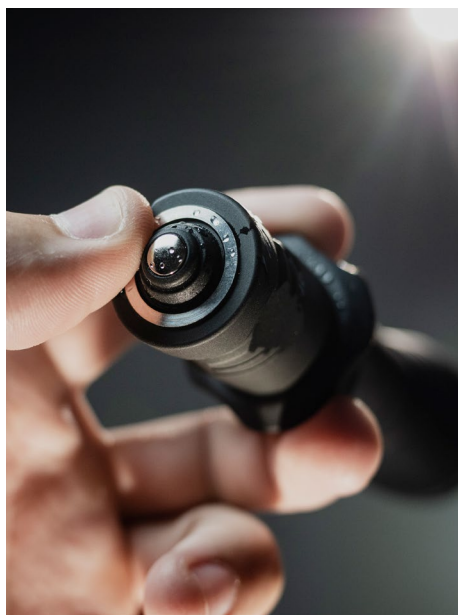

Improved springs: new springs for better protection of the battery and driver and increased performance efficiency

New tactical button: noiseless electronic button prevents disclosing location when hunting or during special operations

Extended set: high capacity battery 3500 mAh and fast magnetic USB charger included. The flashlight is ready to use right out of the box

Compatibility with magnetic remote switch: optional magnetic remote switch for momentary on (only when the button is pressed) and for constant light. Easy one-motion connection, no need to unscrew the tailcap

SET DESCRIPTION

Well-thought-out set of accessories. Injury-safe ergonomic silicone grip for convenient tactical hold. Heavy-duty nylon holster with several fixing options: on a belt of any width, on a Molle mount, on equipment thanks to durable steel ring. Steel clip with wear-

resistant black titanium coating for mounting on clothes, equipment or belt. Size-adjustable wrist lanyard made of heavy-duty paracord and steel carabiner for quick removal and installation on the flashlight.

1 - flashlight, **2** - 18650 Li-Ion high capacity battery 3500 mAh, **3** - fast magnetic USB charger, **4** - steel clip, **5** - size-adjustable paracord wrist lanyard, **6** - nylon holster, **7** - silicone grip, **8** - two spare O-rings, **9** - user manual in eight languages

► The models are available with White and Warm LED. Light output for flashlights with Warm light is about 7% less, beam distance is about 3% less. All the above specifications are test results based on ANSI/NEMA FL1-2009 Standard. The data may vary due to environment, heat dissipation and other factors.

Viking Pro White light EAN: 6957713003290 SKU: F07701C
 Warm light EAN: 6957713003306 SKU: F07701W

BENEFITS OF WORKING WITH ARMYTEK

Armytek is a world famous manufacturer of high-tech flashlights, chargers and accessories. All Armytek products perfectly meet the buyer's requirements. We focus on quality and reliability: smart lineup allows us to thoroughly think through every detail before launching mass production.

HIGH PROFIT

Favorable conditions and flexible prices for bulk orders are ensured by own factories in China.

FAST SHIPPING

Warehouses around the world: the goods are always in stock and ready for shipment. Reduced costs and time of delivery, no additional custom fees required. Lower costs on shippings directly from the factories.

EXCEPTIONAL RELIABILITY

Minimum returns rate – less than 1% (competitors' rate is 5-7%). All products go through quality checking on test stands.

LEGENDARY SERVICE

Full support and cooperation: from placing an order to warranty service. Professional issue management, fast repairs and exchange.

NO HASSLE WARRANTY

Up to 10 years unprecedented warranty.

OWN FACTORIES

Every step of the process is controlled by our European specialists at the factories.

DEVELOPMENT

Head office in Europe. Team of highly qualified specialists from defence, aviation, space and other specialized industries.

EXPERIENCE

Expert in the fields of mechanics, optics and electronics. We specialize in development and manufacturing of flashlights and battery chargers since 2009.

COMPONENTS

Powerful Cree, Nichia and Samsung LEDs, electronics by the USA and Japan, aircraft-grade aluminium, tempered glass, etc.

SMART LINEUP

Simple process of choosing a product, no bulky catalogs with a lot of similar variants. Only best models for client's needs.

NEW PRODUCTS

Armytek produces innovative and the most technically advanced products in the world.

PRIVATE LABEL, OEM/ODM

Creating new products, modifying our production models and personalizing them according to your needs.

MARKETING SUPPORT

We provide all the necessary promotional materials: leaflets, booklets, catalogs, etc.

CLIENTS' NEEDS RESEARCH

We systematically gather feedback to make sure that our products completely fit clients' needs and requirements.

Built to exceed
