

Introduction

The new XTAR VENUS WK16 flashlight turns small size into go-anywhere, functional lighting. A single 14500 battery kicks out max 550 lumens with 125-meter beam distance and 13.6 hours runtime on low mode. Tail tap switching controls all functions of this 98mm-long light. The lightweight makes the newly designed VENUS fits easily into your pocket, backpack, purse, or tool bag. With one considerate metal clip, you can fix it to your shirt pocket, or just reverse the clip and turn it into a versatile cap light. It is great for multiple indoor and outdoor applications including searching, camping, hiking, hunting or even use as an emergency light when suffering a power outage.

Technical Parameter

ANSI	IIIumination levels			
	High	Mid	Low	Strobe
پہر Luminance	550 l m	200 l m	10 l m	550lm
O Runtime (XTAR 14500 800mAh)	47min	3.16h	13.6h	N/A
Beam Throw	125m			
Max Intensity	3900cd			
√I mpact Resistant	1.5m			
™ Waterproof	IPX8			
LED	CREE-XP-G3			
Working Voltage	1.0V - 4.35V			
Switch	Tactical Tail Cap			
Battery	1*AA N I- MH/1*AA ALKA/ 1*14500 Li-ion			
Additional Functions	Reverse polarity protection			
Body Material	Anodized aircraft 6N01 aluminum alloy type III Hard-anodized anti-abrasive finish			
Size	Ø22.6mm (Head Dia) x Ø20.1mm (Body Dia x Ø20.5mm (Tail Dia)×98mm (Length)

Operation

Press the button within one second to access the four output modes from High to Low and strobe. When power off, touch the button lightly, the default mode is the last shutdown mode (except strobe), which it has memory function.

Tips

- 1. When battery exhausted or flashlight not in use for a long time, XTAR recommends removing the battery from the unit.
- 2. When installing battery, notice carefully the direction of positive and negative poles. Damage could occur to the circuit board due to incorrect battery installation.
