Usage and Maintenance

- * Please don't disassemble the sealed head/lighting so can cause damage to the flashlight.
- * High-power flashlights need batteries capable of high current electric discharge. We strongly recommend use rechargeable batteries for their high performance.
- * Please take your battery out of the flashlight if you will not use the light for a long time or the power of the battery has run out. Otherwise, some poor batteries may leak and damage the light.
- * Please replace the O-ring if it becomes damaged after using for a long time, and regularly lubricate the O-ring so as to not make the rubber O-ring so will also keep the flashlight properly sealed against water.
- * Clean the contacts of your light periodically especially when the flashlight flickers abnormally or cannot light up. There may be several reasons as follows:
 - * Reason 1: The batteries need to be replaced. Solution: replace batteries (confirm the correct installation of anode and cathode).
 - * Reason 2: The anode, PCB board contact or other contacts are dirty.
- * Solution: clean the contact points with an alcohol soaked cotton swab.
- * If the above methods do not solve the issue, contact your distributor and refer to the warranty policy.

Product Warranty

Acebeam guarantees flashlight against defects in material and workmanship. Flashlight products that are found to be defective under normal use within 24 months of the period of purchase date will be repaired or replaced without charge. This warranty does not cover damage caused by accident, unreasonable use or product alteration. Failure to follow the general maintenance directions could result in damage to your flashlight that may not be covered by Acebeam warranty.

If this flashlight should prove defective, the product will be repaired or replaced under the above terms, please contact Acebeam or your original Acebeam dealer for warranty repair instructions.

Warning

EC32 is a high intensity lighting device and capable causing eye damage, avoid shining the light directly into the eyes.
